## **APT MANUFACTURING SOLUTIONS ADDS PACKAGING INDUSTRY VETERAN**

HICKSVILLE, OH – APT Manufacturing Solutions is excited to welcome east coast packaging automation veteran, William P. Buck, MBA, to the great state of Ohio, and the APT Team. Bill adds his many years of valuable engineering, automation, and customer satisfaction knowledge to APT's think tank of expert solutions engineers.

Bill, an application sales engineer by trade, completed his undergrad coursework in Engineering (AAS) and Philosophy (BA) and obtained his graduate degree in Marketing and Operation Management (MBA). After school, Bill stayed in New York and built a 30 year career in systems design, project management, application sales engineering, and marketing for his previous employers. He was on the cutting edge of crafting detailed robotic carton loading, case packing and palletizing solutions for various Fortune 500 companies, and designing unique components and assemblies for case packing machines and conveyors.
